Assessment

Week 2 : Assignment

The due date for submitting this assignment has passed. Your last recorded submission was on 2026-08-02, 22:53 IST.

Due date on 2026-08-05, 23:59 IST

1. Experimental data generated from a setup must validate the theoretical predictions or models designed for that setup — 1 Point

- True
- False
- Sometimes
- Never

Yes, the answer is correct. Score: 1

Accepted answer is Sometimes

2. Literature survey is important because — 1 Point

- [x] It helps in getting a summary of work that has been done till date in some particular research area
- [x] It is helpful in ensuring that a research work is not getting repeated
- [x] It is helpful in understanding the approaches taken by scientists and what are the gaps in the processes
- [x] It is helpful in clarifying the controversial results that one can get

Yes, the answer is correct. Score: 1

Accepted answer is It helps in getting a summary of work that has been done till date in some particular research area, It is helpful in ensuring that a research work is not getting repeated, It is helpful in understanding the approaches taken by scientists and what are the gaps in the processes, It is helpful in clarifying the controversial results that one can get

3. Which of the following methods of searching for literature is suitable to identify the earliest contributor of a scientific outcome? — 1 Point

- Keyword based search followed by sorting by year of publication
- Citation based search followed by sorting by year of publication
- Keyword based search followed by sorting by citations
- Back reference based search following a keyword based search

No, the answer is incorrect. Score: 0

Accepted answer is Back reference based search following a keyword based search

4. Which of the following bibliographic details is a sufficient and unique piece of information to locate an article in an archival journal? — 1 Point

- ISSN
- DOI
- Page Number
- Volume Number

Yes, the answer is correct. Score: 1

Accepted answer is DOI

5. Which of the following is always true for an open access journal? — 1 Point

- Such journals are not peer reviewed
- Articles in such a journal are freely available for download
- Such journals charge for publication of an article
- Such journals are of dubious reputation

Yes, the answer is correct. Score: 1

Accepted answer is Articles in such a journal are freely available for download

6. Which of the following is NOT a recommended practice to identify publications that need to be listed under references of an article? — 1 Point

- Relevant publications actually referred to
- Latest publications by the editor of the journal
- Original publications in the topic of the article
- Own publications referred in the article for further details

Yes, the answer is correct. Score: 1

Accepted answer is Latest publications by the editor of the journal

7. Which of the following indices is considered as a measure of the impact of a particular author in its area of his/her specialization? — 1 Point

- Total number of articles published
- Hirsch index of the author

- Number of views of his/her latest article
- Number of downloads of all articles in a year

Yes, the answer is correct. Score: 1 | Accepted answer is Hirsch index of the author

8. The following are categorized as primary source for literature survey — 1 Point

- [x] Periodicals & research reports
- [ ] Conference proceedings & official publications
- [ ] Compilations & reviews
- [ ] Directories & year books

Partially Correct. Score: 0.5 | Accepted answer is Periodicals & research reports, Conference proceedings & official publications

9. The abstracting databases for systematic manual searches include — 1 Point

- [ ] INSPEC and COMPENDEX
- [ ] PubMed
- [ ] Wikipedia
- [x] Chemical Abstract (CA) service

Partially Correct. Score: 0.34 | Accepted answer is INSPEC and COMPENDEX, PubMed, Chemical Abstract (CA) service

10. Consider that you have collected the following resources towards your research: — 1 Point

(1) A reference in a journal article that you have not referred yet
(2) A link to the website of a professional society
(3) A published article with journal, year, volume and page number
(4) An article from a newly launched journal with volume number, page number but year and ISSN number are due
(5) A newly accepted journal article with DOI link
(6) A book with an ISBN number available

Which of the following can be considered as archival (valuable record) references for inclusion in a publication?

- Only 1, 2 and 3
- (•) Only 3, 5 and 6
- Only 3, 4 and 6
- Only 1, 2 and 5

Yes, the answer is correct. Score: 1 | Accepted answer is Only 3, 5 and 6
